Two Petitions addressed to his Excellency from Lundy Hurst and Obediah Greenage the Malefactors under Sen-Malefactors under Sensured Sen Reprieve And a Letter from the Rev^d John Joachim Zubly on the same Subject and particularly recommending the said Hurst to his Excellency for Mercy: were at this Board read And his Excellency desired that the Gentlemen would give him their Sentiments thereon, who having duly considered the Matter were of Opinion that Lundy Hurst was rather an Object of Mercy and recommended him Accordingly Whereupon his Excellency proposed to Suspend the Sentence for some time until he The Boards Could more fully inform himself of the Mans real Character And ordered that Mr Attorney general should prepare a Reprieve for the said Hurst for one Month, And in Respect of Obediah Greenage the Board were Unanimously of Opinion that no favourable Circumstances whatever Attended his Case—

His Excellency also laid before the Board a Petition

Sentence of Death read

Petition of the addressed to him for William Mackenzie concerning a Master of a Slave under Negroe of his under Sentance which Petition being read his Excellency desired the Gentlemen would give him their Opinion in Respect thereof and wether they thought it Advisable for him to pardon or Reprieve the said Negroe The Board having duely considered the Matter were Unanimous in Opinion that the Sentence of Death passed on the said Negro ought to be executed-

The Boards Opinion thereon.

> His Excellency likewise desired the Opinion of the Board upon a Petition addressed to him from the Inhabitants and Settlers on little River and parts adjacent above Augusta complaining of great Plunder and Depredations committed on their Stock of Horses and Cattle by a Party of Creek Indians lately settled on the Oconee River which said Petition and a Letter from the Magistrates of St Paul's Parish on the Same Subject was read and are as follows vizt

Copy of Petition

To his Excellency James Wright Esqr Captain General Governor and Commander in chief in and over his Majesty's Province of Georgia

Settlers on lit-Excell. touch-ing the Indians

The Humble Petition of the Inhabitants of little River Petition of the and Adjacent Waters, Humbly sheweth that the Creek the River to his Indians have Stolen horses from the Inhabitants several times, this last Spring and present Summer and have lately taken a Quantity of horses and were pursued by five of the Inhabitants as far as Oconey River where they came in Sight of the Indian Camp late in the Evening, and seeing there was a large body of Indians, were afraid to go to their Camp to demand their horses but waited in Order to take them at Dark: and as they lay concealed one of their dogs Yelpt which alarmed the Indians who set up

their War hoop and discharged a Number of Guns and the Bullets were heard to strike Trees and Canes near where those five white Men were waiting which Obliged them to quit their Station and make the best of their way to the Settlement: Since which Time we have promiscuously assembled at the Strongest and most convenient Houses in the Settlement with what of our Stock we had remaining on Account of hearing that there was an Express come from their Nation that twenty or upwards of that Nation set out with an Intent to kill all the Stocks in little River Settlement, and well knowing how barbarous the Indians have oft times behaved in different Parts of this and the Neighbouring Provinces We your Excellencys most humble Petitioners are so terrified at the thoughts of loosing our Stock and very possibly our Lives as we are but a Small Settlement and not able to defend ourselves against a considerable number of Savages without assistance We therefore most humbly pray your Excellency in your great Wisdom and Clemency will take this our deplorable present Circumstance under your immediate Wise Consideration and if your Excellency would think proper to afford us some Assistance to be a Means of preserving both our Lives and properties as your Excellency in your great Wisdom shall think proper rather than leaving us to the Mercy of Savage Fury Your Excellency's agreeable Compliance to your Petitioners humble Request will Oblige them for ever in duty bound to pray

You'l receive this by John Herd one of the Settlers on

Copy of Letter little River who waits on your Excellency with a Petition from the Justices at Augusta. disagreeable Situation with Respect to the Creek Indians this has been their Complaint for many Months past and arises intirely from a Party of Rascals who have made a Small Settlement on the Oconee River to which Place they convey the horses which they Steal as well from these Settlers as from other Settled in and about Augusta Bryan Creek &c a Party lately Stole and carried off two from Mr Barnard and four from Mr Grierson which were seen in their Possession on the Path-

> The Settlers of little River had determined to go off as this day to the Oconees where these Indians are Settled: but we apprehending that ill Consequences may arise from those People's Going without proper Authority, or a proper Person among them to conduct the Matter prevailed on them to defer the thing till such time as your Excellency is made acquainted with it, We are much of Opinion that some ill Consequences will arise between the Inhabitants and Indians unless some Measures, more prudent than what they intend to follow are taken; and if somethig is not done, at all Events, the Settlement must break up—the Bearer goes down on Purpose to present the Matter to your Excellency

We are with Respect

Your Excellency's most Obedient Serv^{ts}

Edward Barnard Tames Tackson Peter Walsh Thomas Waters

Whereupon his Excellency proposed to send a Talk to the Nation or Towns in the Nation to which these Indians His Excelly. proposes to send a Talk to belong complaining of their Insults and Robberies and Creek Nation. requiring that these Indians be called home to their Nation or Towns to prevent the bad Consequences that may otherwise happen: And that they do in future Strictly Observe the Terms of the Treaty settled at Augusta in November 1763 and that a Copy of the said Talk is transmitted to the Superintendant of Indian Affairs that he may cooperate with his Excellency therein All which was approved of by the Board—

 S^{r}

Settlers and the

We are just now favoured with Yours of the 24th In-Letter fm Mag-istrates of Au-stant in Answer to ours of the 20th it has ever been the gusta touching the little River Prectice of the Creek Indians coming to the Settlements to Steal and carry back horses of late they have gone greater Lengths and in an Open Manner drove off whole Stocks of the horses of Some of the People up the River killed their Cattle and Hogs before their Faces and desired them to remove off the Lands on little River— It was not till we were informed of this, and the Petition of the little River People was shown Us that we thought it necessary to trouble Your Excellency-

> The very next day after they dispatched the Messenger with their Petition thirteen of them went to the Indian Settlement on the Oconees and Yesterday we were informed that they had burnt the Settlement consisting of seven houses and brought off a few old Blankets some Kittles and Skins which they found in the houses and that they saw but one Indian who immediately made off—

> The Inconsistency of these People's behaviour an (sic) the Consequences that may Attend it has given us not a little Uneasiness: we had no Opportunity of preventing it as they were gone several days before we were acquainted with it, and we never imagined they would have thought of going till the Return of their Messenger when we would not have neglected taking proper Steps to prevent them-

An oppertunity offering we thought it necessary to Ac-

quaint you of this we shall Send for Some of the People that have been out and examine them further And by the next Opportunity (slc) shall transmit you their Names-

We are Sir, Your Most Obedt humble Servts

Whereupon his Excellency Acquainted the Board that His Excelly prepared a Letter to the Magistrates at Augusta ter in answer. ordering them directly to issue their Warrants for the Apprehending as many as possible of the People who had been guilty of the Above Outrage, and that they do commit to Jail three or four of the principal of them against whom the clearest Evidence can be Obtained, which the Board approved off—

18 c r-vol 10

Since writing my Talk of the 30th of last Month I have Also a Talk to received an Account from Mr Barnard and other beloved tion. Men at Augusta that some of the Straggling White People above Augusta being provoked by having their horses Cattle and hogs Stolen and carried away by Some of your People went to the Oconees to the Settlement I have mentioned in the following Talk, and finding no body there but one Indian who went away immediately on their coming, they burnt the Indian Huts or Houses, but as I have heard nothing of this Matter 'till Yesterday and dont

yet know whether I have been told the whole truth, all I can say is that I am very sorry any of the white people within my Government should behave in Such a Manner: and that I have Sent orders to Mr Barnard and the Other beloved Men at Augusta to apprehend the people who it is Suspected have been guilty of this Misbehaviour and Breach of the Treaty Subsisting between us, and to send them here to Savannah and you may depend upon it that they shall be strictly prosecuted and punished with the Utmost Severity that the Laws of the White People will admit of It gives me much Concern that this rash Action has been committed but you must well know that it was not in my Power, at this great distance from the Place were (sic) those people live, and the Oconee, to prevent an Injury being done especially one that was Actually committed eight or ten days before I know (sic) or heard any thing of it: and you may be assured I will punish them for it, and that you shall have full Justice done you on this Occasion Agreeable to the Treaty-I hope you will have due regard to my Talk of the 30th July and as much as possible prevent your people coming down amongst the white People as you see the Inconvenience and Danger of their doing so and taking away the white people's Horses Cattle and Hogs-

The talk also which his Excellency at a Council held on the 29th July last had proposed to send to the Creek Nation upon the Complaint of the Settlers on little River and parts Adjacent was read at the same time and intirely approved of and is as follows viz^t

Talk to the Creek Nation

Friends and Brothers

Creek Nation on 30th July

On the 24th of this Month I received a Complaint in Talk sent to the Writing from thirty five of the Inhabitants between Augusta and little River setting forth that some of your People have made a Small Settlement on the Oconee River from whence they come into the Settlement aforesaid and also to the Settlements on Bryar Creek and that they or some other Indians have at Several times and for some Months past Stolen many horses &c from the white people and carried them to the Indian Settlement at the Oconee River aforesaid: That lately five of the White People went after the Indians to that Settlement in Order to get their horses back again, and not getting near the Settlement 'till Night they lay by at a Small distance, that in the Night one of their dogs barked and immediately the Indians set up the War-hoop and fired Several Guns, the Bullets from which were heard to Strike the Trees and Canes where the White Men were, on which they returned home again without going to the said Settlement to demand their horses or Speaking to any of the Indians-And the said White People in their Complaint further set forth that they have been informed that upwards of twenty more Indians were to set out from your Nation in Order to kill and destroy all the Stocks on the little River Settlement and disturb the Inhabitants in that Part of this Province in their Settlements and Plantations-

Friends and Brothers

I am very sorry I have any Occasion to make any Complaint to you on this Account, but you very well know that by the fourth Article of the Treaty made by me with the Other three Governours and Superintendent Indian Talk

and all your head Men that were at Augusta in November 1763, and which has been since Solemnly approved and confirmed by your Whole Nation, It was agreed that the Boundary between the English Settlement and your Hunting Grounds in that Part of the Countrey should be known and Settled by a Line extending up Savannah River to little River and back to the fork of little River, and from the fork of little River to the Ends of the South Branch of Briar Creek, and down that Branch to the lower Creek Path, and along the lower Creek Path to the main stream of Ogechee River and so on as in the said Treaty is mentioned and expressed, And you also very well know that by the third Article of the said Treaty it is expressly agreed on your Part "That the Indians belonging to your Nation would in all Cases and upon all Occasions do full and ample Justice to the English, and that you would do your utmost to prevent any of your People from giving any disturbance or doing any damage to them in their Settlements or elsewhere either by Stealing their horses killing their Cattle or otherwise, or by doing them any personal hurt or Injury and that if any damage be done Satisfaction shall be made for the same to the Party injured."—I know perfectly well that I have taken the Utmost Care and pains that all the White people should conform and conduct themselves agreeable to the said Treaty, and that none of them Should Settle over the Bounds on your hunting Ground, and have sent Parties to see that none did; and if any had been found there, I should have destroyed their houses and punished them for so doing: And I have taken great Care that no abuses in the Settlements or damage whatever should be committed or done to any of the Indians: And when one of your People was killed near Satilla by three run away Negroes from Carolina I immediately set out after the Negroes apprehended them, Indian Talk

and they were all put to death, as I acquainted you in my Talk sent up by Mr Mackintosh in January last: and all these things you must very well know and be sensible are true, and that I have always been ready to do you full Justice and will do so on all Occasions-The white people about little River and Briar Creek, as far as I know or have heard, live peaceably and quietly and employ themselves in planting and taking Care of their Stocks of horses and Cattle, and which they have a Right to do in all Places within the Bounds agreed upon by the Treaty aforesaid: And I must not Suffer any Indians to disturb them or their Plantations or to Steal their horses and Cattle if any white people were to Steal the hores and Cattle of Other white People by our Laws they would be hanged, and a White Man is to be hanged here at Savannah to Morrow for Stealing an horse-But with respect to your People I now make my Complaint to you Agreeable to the Treaty and shall expect that you immediately inquire into it and make them deliver back the horses they have Stolen, and that you take Care to prevent their Stealing any more, or giving the White People who are Settled on little River and Briar Creek any further disturbance, or doing them any Injury or damage whatever I do not Charge the whole Nation with this Injury and Breach of the Treaty as I am informed it was done by a Party that was settled in the Oconees, or some Other straggling Indians: but I apply to the Whole Nation or Head Men to restrain the Offenders and thereby to keep the Path strait and White between us, and not let our Peace and Friendship be interrupted and broke by some few bad Man (sic) Amongst you, and the better to effect this I would Strongly recommend it to you not to Suffer any of your People to Settle on the Oconee River, or have any Scattering Settlements about in the Woods, especially near the White people. but to keep together in your Towns in the Nation and

Indian Talk

they will be at too great a distance to go Often Amongst the White People to disturb or do them any damage-What I require of you you must see and be well convinced is only common Justice, and what the White People have an absolute and indisputable Right to demand and Obtain and you must also Clearly See and be convinced that it is for your own Benefit and Advantage to comply with my demand for the terms of the Treaty are that on your performing it on your Part the Great King's Subjects shall furnish you with goods of all kinds to Supply your Wants, and without having Guns and Ammunition what deer could you kill? and how could you cloath your Selves and your Women and Children if you had not goods from us, for where can you now get these things but from the great King George's Subjects the White People? Seeing therefore that my demand is not only intirely just and reasonable, but also clearly for your own Interest and Welfare, I have not the least doubt but you will immediately and cheerfully inquire into the Matters I complain of and order your People to break up the Settlement on the Oconees and return to the Nation, and prevent Mischief being be be (sic) done by any of your People for the future, and you may depend on being well Supplied with Goods and receiving every other Mark of Friendship from me-

His Excellency laid before the Board an Affidavit Affidt. relative of Christian Kegle relative to the Murders said to be said to be committed on So. committed on the South Side of St. Mary's River, and side of St. Captain George Mackintosh also attended to give some Captain George Mackintosh also attended to give some Account of the same; Whereby it appeared that only two Men were killed and one wounded, and that upon a private Quarrel between one Mills and an Indian named Saucy Jack: That a Number of Indians to the Amount. as supposed, of forty or fifty had possessed themselves of the Houses and Plantations of one Leman and one Helvenstine on Satilla River which had been abandoned by the Inhabitants, and that in Leman's House the Indians, having found Some Rum and other Goods, had taken them away - Captain Mackintosh tendring his Service to go with a Party of Men to the said Leman's House and get what Intelligence he could of the Indians Intentions, and of the depredations they had committed. His Excellency by the unanimous Advice of the Board, gave Orders to Captain McIntosh to proceed to Satilla with a Detachment of fifty Men of the Southern Companies of Militia, and in Case he found any Indians there to endeavor by all possible fair Means to induce them to return such Goods as they might have belonging to the said Leman: and to Acquaint them that in Pursuance of the Treaty at Augusta Satisfaction would certainly be demanded of the Nation but should the Indians refuse to return Such goods by no Means to use force, and to be very careful in avoiding any Steps being taken that might produce a Disturbance or Rupture with those Indians-

One Thomas Davis also attended who had Yesterday

made an Affidavit before Charles Watson Esqr and which he this Day confirmed and is as follows vizt

Georgia Personally appeared before me Charles Wat-Affidt.touching son Esqr one of his Majesty's Justices assigned to keep the the threatnings of ye Indians. Peace in the Parish of Christ Church Thomas Davis who being duly Sworn made Oath that at Several Times since last Spring the Creek Indians came to him and ordered him off their Lands and said it was Indian Ground and not given up in the Treaty, and if the Settlers on the South Side Ogechee did not remove from off their Grounds that they would take their horses and Cattle and kill the Inhabitants: And that on Friday last being the second day of October the said Davis with a Party, went to the Indian Camp and was told by the Indians that they had better move from off their Lands, as there was an Head Warriour gone up to the Nation and intended to be down soon again with a Party of Indians, and if by that time the Settlers had not removed from off their Grounds that they intended to take their Horses the Mark of and Cattle and kill the People-Sworn the 5th October 1767 before me Chas Watson THOMAS DAVIS

His Excelly Proposals how to proceed in the affair.

Whereupon his Excellency proposed Sending up Mr Moses Nunes attended by an Officer and ten Men of the Ebenezer Companies of Militia to Acquaint the Indians on the South side of Ogechee that the Line as settled by the Treaty at Augusta would Shortly be run - and if it then appeared any Settlements were beyond that Line they should be removed: And to Represent to them in the Strongest Light the ill Consequences that may attend any Attempts being made in the Mean Time to dispossess the Inhabitants or drive off or destroy their Cattle or Horses. - And his Excellency likewise proposed giving Orders that a Detachment of the Ebenezer Companies of Twenty five or Thirty Men upon any Information from the Inhabitants of those parts that they are really in Danger should march to their Assistance, and prevent their Stocks being driven off or destroyed; the Officer Commanding such Detachment being particularly cautioned to avoid every rash Means that might tend to imbroil the Province or produce a Rupture with the Indians — And that twelve Pounds and an half of Powder and Twenty five Pounds of Ball should be delivered the said Davis for the Defence of the Settlement. — All which the Board unanimously approved of

Whereupon the Clerk was desired by his Excellency to produce the Appointment of Mr Garth as Agent for that his Excellency knew of no such Appointment: and was also asked whether he had any Power of Attorney to demand and receive that Sum? to which the Clerk answered that he was not possessed of M^r Garth's Appointment as Agent, nor did he know of any such Appointment, nor had he any Power of Attorney from him to demand and receive the said £100. His Excellency observed that even if their had been a regular Appointment by the Governour Council and Assembly yet the Money would not be due till June Next: and then Stated the Matter to the Gentlemen of the Council for their Opinion and Resolution thereon, Whether any order should or could issue to the Treasurer for the Payment of the same. Who unanimously declared that they know of no Agent for this Province, and that they were of Opinion no order could issue for the Payment of the said £100 to Mr Garth for the Reason given by his Excellency: And to obviate any seeming Impropriety in such an Article standing in the Tax Bill, they desired to refer to the Reasons given by them on the 20th of March 1767 when convened in general Assembly, and which were entred on their Journals for that Day.

McGillivray concerning a Garden Lot lately ordered him read

Read a Petition of Lachlan McGillivray Esqr setting Petition of L. forth that in the Month of November 1766 he did purchase sundry Garden Lots lying to the West of Savannah together with the dwelling House Buildings and Improvements thereon erected and being, which Premisses were the Property of William Smith Tanner deceased: And had since purchased of several Persons other Garden Lots adjoining, the Cost of the whole amounting to five hundred Pounds Sterling or there about— That the dwelling House and Improvements made by Smith and

purchased by Memorialist were said to be and were intended to be erected on Lot Number 41. but the Lot being divided from Lot Number 42 only by a diagonal Line (the two Lots making a Square) it was apprehended that, possibly, some of the said Buildings, by their Situation might extend across the Line: and to prevent future Contests, as well as to Secure his Just property, Memorialist made early Application to become Purchaser of the said Lot Number 42 but finding it impracticable the said Lot, as then said being the Property of a Minor who could make no Title, Memorialist proposed, as an Expedient to lodge a Sum of Money in the Guardian's Hands, equivalent to the Value of the said Lot, to be for the use of the Minor, when of Age, on the said Lot being conveyed to him- That upon Search lately made in the proper offices it was found that no Grant had passed to the Person, under whom the present Minor claimed, for the Lot Number 42, but that the Lot inserted in the said Grant was Number 50; therefore the Memorialist at the last Board did exhibit his Petition for the said Lot Number 42 as a vacant Lot, which was accordingly ordered him, but the Guardian of the aforementioned Minor had since entered a Caveat against the Grant passing— That on a Resurvey of the front Lines of the said Lots, lately made at Memorialist's Expence by Henry Yonge Esqr Surveyer general and Mr Romans his Deputy, it was found that all the Buildings made by Smith were on the said Lot Number 42 claimed by the aforesaid Minor-That after the great Expense Memorialist had been at it would be an extreme Hardship on him to have his Buildings taken from him by far the most valuable Part of his Purchase, Therefore hoping his Case being taking under serious Consideration, and it not appearing in the Public Plan of Garden Lots (remaining in the Surveyer general's Office) that any Grant had yet passed for the said Lot Number 42, that the order made in his Favour

His Excelly. communicates, Letter to the Bod touching some Indians

His Excellency communicated to the Board a Letter he had received from Colonel Jackson, of Augusta acquainting him that a Party of Indians going through the Settlements towards the Creek Nation had robbed a Man in the one James Carter of all he had and that the rest of the Inhabitants were so apprehensive of suffering the Same Injury that they prevailed on Capt Thomas (who with some of the Militia under his Command had gone after the Indians and recovered a Part of the Stolen Goods) to leave some of his People for their Protection, which Captain Thomas had done under Promise of being paid for their Service: And requesting to be informed how those People were to be paid, and what Orders he might give in such Cases for the future The Board on consid-Opinion of the ering the Matter were of Opinion that whatever the De-Board thereon mand might be should be given into the Treasurer to be laid before the Assembly at their Next Meeting, there being no Fund appropriated for that Service- That the People in the Settlements ought to take every prudent Step to defend and protect their Properties from Depre-

dation, but that the late Treaty settled with the Indians at Augusta and the Laws of the Province were to be duely Observed and great Care taken that no Acts of Violence be committed that might in their Consequence involve the Province in a Rupture with the Indians.

His Excellency acquainted the Board he had received Resolution of Council touching a Vessel Master who arrived at Tybee on Saturday last with Newith the Small Pox on Board. groes from the Coast of Africa was infected with the Small Pox; and desired the advice of the Board thereon in pursuance of and agreeable to the several Acts of the general Assembly now in force and in such Cases provided: upon which the Board unanimously advised his Excellency to give the following Orders Vizt.

> That the said Vessel be carried into, and moored in, Tybee Creek and together with the Slaves and Persons therein do remain there at least Forty Days after the last Person infected shall have recovered; and that the Slaves and Persons put on Shore be prohibited and restrained from going beyond the Marsh on Tybee, which divides the Public Land from the other part of the Island; and that the Master be strictly enjoined that such Slaves or Persons who may die on Board or on shore during the Ouarantine be buried in some convenient place on the public Land at least five Feet beneath the Surface: and that no Person or Persons whatever be permitted to go

on Board the said Vessel, or to the Lazaretto, or Keeper's house or to land within the Space or limits above described under the pain of being obliged to remain and to perform the same Quarantine as the said Vessel and the Slaves and Persons therein shall perform and also of the Penalties by Law in such Cases inflicted: That all Provisions and Necessarys that may be wanted by the said Vessel Slaves and Persons therein and on shore be landed at the Oyster Bank below the Lazaretto; and that when any Boat shall be sent down therewith that the Commanding Officer at Fort George be directed to appoint a proper Person to go with such Boat with Orders to prevent any Person therein from Landing or haveing any intercourse with those on Shore; and that the commanding Officer at Fort George the Commander of the Scout Boat and the Keeper of the Lazaretto be appointed to enforce these Orders pursuant to the Ouarantine Act.

Mr Graham to whom the above Vessel is consigned applied to his Excellency for permission to have such Slaves and Persons on Board the same inoculated as should appear necessary in order that the Difficulties & Inconveniencies of a long Quarantine and the Danger and the Dager (sic) of spreading the disorder may be the more easily avoided: His Excellency requiring the Opinion of the Board thereon they unanimously advised to permit such Inoculation should it appear necessary.

And it appearing that the Snow Fortune Captain Baird with Negroes from the Coast of Africa was also arrived at Tybee and as the Persons infected would occupy the Lazaretto and thereby render it impracticable to Land and Air the Slaves on Board the said Vessel as by Law required: the Board advised his Excellency to give Directions that the said Slaves should be Landed and Aired on the East End of Cockspur Island.

Lachlan McGillivray The Talk of Emisteseegoe one Esqr Interpreter The Creek Countrey.

Indian Talk.

After being told that his Excellency was come with his beloved Men to hear all he had to say, Emisteseegoe said, that whatever Men might propose it depended intirely upon Providence to perfect it; — That originally all the Lands belonged to their People, but that in Process of Time they became acquainted with the white People, and that he is glad to see them here this Day as Brothers — That, however, these Lands being originally their Inheritance they are bound to regard them as such, but that, whatever might happen, they should always pay due Regard to the Treaties made with the white People concerning them, and look on them as their Brothers — That they looked upon the Road between the

white People and them as a white Road free from Bushes Stains or other Impediments, and hoped it always would remain so, and in that Confidence he came now along it - That should any Impediment be there, it would, he hoped, be no more than what the Wind by blowing would remove, and the Whiteness of the Road itself still continue - That this was what their Forefathers hoped and meant, and what the several Treaties were intended to preserve - That the white People being skilfull in maritime Affairs discovered many Countries unknown to them, and among others this also - That they came to their Land and made a Fire there, and the red People received them as Brothers and sat at one Fire with them -That the Method of the red Peoples travelling is different from ours, they never regarding the length of Way when they mean to see their Friends which they are now come to do - That therefore he came down in a friendly Manner to see the beloved Men of the white People who live upon the Coast sensible that an Intercourse of that Sort tends to keep up a Remembrance of old Treaties - And that he, on that Account, had visited the Governour of Pensacola, and presented him with the Tail of a white Eagle - That he then told the Governour of Pensacola and now repeats it here, (as he looks on the white People of Pensacola and here to be all one) that he would always use his utmost Endeavours that the Road between the white and red People should be kept white and they be as Brothers — That the Superintendant had told him that the great King over the great Water looked upon the red People as his Children, that he had therefore taken him by the Hand and by a firm linked Chain in Order to hold him fast - That although they had no Iron in their Country, yet as a Vine twines itself round a young Tree and becomes fastened to it by so many Fibres that it could not be loosed, and would grow up with it; so he meant to hold as fast as that, and

hoped these Sentiments would always remain. - That the Governour of Pensacola told him they had borrowed a Piece of Ground of them near the Water which he wanted to have enlarged, and though it was attended with some Difficulty on the Part of the lower and upper Creeks, yet he got it done and remembers it still - That when that Boundary was settled he hoped the Transaction of that Day would not be confined to the Knowledge of the present Generation but would be remembered by the Posterity of both white and red People; and he hopes that the Trees marked on that Line will stand as a great Stone Wall to mark the Partition between them, and that not one Tree shall be cut down beyond it - That the Governour of Pensacola then assured him that if any white People should inadvertently settle beyond their Line he would immediately remove them — That he has not in his Way down here observed or heard of any Settlements made beyond the Line stipulated with this Province — That it often happened two or three of the head Men of their Nation without any general Authority would come down and talk with the Governours of the white People and transact Matters with them which if the Nation did not agree to they would afterwards deny, from whence many Inconveniencies happened—for his Part, what he has to say he is authorized to do by a general Meeting of Head Men of both upper and lower Creeks — That just before he came away he heard a white Man had settled beyond the Boundary Line in west Florida; that he had not Time to examine into the Matter but supposes him to be one who does not regard the Directions of the beloved Men of the white People or the Authority of the Governour — That he supposes this will not be the only Time he shall be with his Elder Brethren the white People, but for fear of being tiresome would conclude for the Present. — On being desired to proceed if not disagreeable

to him, He said the Superintendant told him he was to give Talks from the great King to the red People and to preserve, if possible, Peace not only between the white People and them but among themselves — That he the Superintendant was very sorry to find the Choctaws and their Nation were at War and destroying one Another, but that he could not interfere in conciliating Measures between them unless at their Request - That with Respect to the Creeks he recommended it to him to endeavour to dispose them to a Peace, and that he himself would take the proper Steps with the Choctaws-In Consequence of which Desire of the Superintendant he did go among the Towns and found the Creeks in general inclinable to Peace and that they thought the Superintendant had their Good much at heart, and that the Advice he gave was for their Advantage — That although it was agreed to be so salutary a Measure yet it would take some Time before a Peace could be brought about, nor is he indeed certain whether it is as yet fully established and concluded — That the Superintendant told him he expected to know fully the Intentions of the Creeks before he went round to Mobile, when he would also know those of the Choctaws, and put the Matter in Dispute upon such a footing as to Effect a Peace — That the Superintendant also told him he intended to stav some Time at Mobile where fresh Meat was very scarce, and that therefore he intended to have some Cattle drove thro' their Land to Mobile for the Use not only of the white People but of his Friends the Indians who might come there, of which he desired him to acquaint the Head Men of the Creeks, and that he expected they would have no Objection to it - This he thought was very reasonable, and it was thought so by them - That the Superintendant also told him that perhaps some Person about Augusta might want to drive some Cattle also through their Land to Mobile, but desired that

their's might not be permitted to go before his went — That he thought this was so particular that he desires to know what the Superintendant's Reason could be for such a Request - That he understands a Gang of Cattle of Mr Galphin's had been lately drove to West Florida and desires to know whether it was by Desire of the Governour of West Florida, or whether Mr Galphin did it of himself — That he remembers at the grand Congress at Augusta when the Governours of the Provinces of Virginia, North Carolina, South Carolina and Georgia, many of the head Men of the Creeks, and other Nations, and beloved white Men, met, It being considered that many Disputes and Inconveniencies arose from stragling white People settling on the Indian hunting Grounds it was agreed that a Line should be run from a Branch of little River cross to the north Branch of Briar Creek and from thence cross to Ogechee River and down that River to a particular Path which he is unacquainted with - That on his return from the Congress he acquainted the Head Men of the Nation with what was done who were well satisfied therewith-but he has since heard a Piece more of Land is taken in within that Line, and he does not know whether it is so or not, if it is, he desires to know who they were that agreed to it — That he is apprehensive some Error must have been committed in running the Line as he cannot find one who was at the running of it that can give him any tolerable Account of it, he therefore supposes they must have lost themselves in the Woods, or they would doubtless have gone a Strait Course and not traversed (sic) as he supposes they did, and therefore it was no Wonder they squabbled about it — That he understands St Iago was settled within the proposed Line and that he was desired to remove from his Land, which he thought would be an Hardship considering that St Iago was a principal Man in their Nation, and that the red

People had acted with much Generosity in giving up the Land to the white People — This he desires to be informed of as being a Matter he cannot comprehend, as he supposed that Settlement was without the Line.

His Excellency communicated to the Board his Answer to the Talk given by Emisteseegoe the Indian on Saturday last; which was intirely approved of. — The Indians were introduced and the Talk delivered to them by the Interpretation of Lachlan McGillivray Esqr, as follows,

Friend and Brother Emisteseegoe,

Your Observation on the Omnipotence of the great God and Master of Breath is very just, for let Men propose to themselves what they will, yet it is sbject to the overruling Power of Providence, and without the Almighty's Permission cannot be perfected. It is also very true that this Country, these very Lands we are now upon, were inhabited by the red People, and did belong to them before the English discovered them and landed here. — That this Event of the white People's coming here may also be considered as owing to the good Providence of God; for the Red People being unac-

Governour's Answer to Indian Talk

quainted with and unskilled in the Arts and Sciences were under great Difficulties in cloathing themselves, and had no Ornaments for their Women or themselves nor any Arms to kill Deer, or to go to War against their enemies, or defend themselves with, but only Bows and Arrows—but since the white People came among them they have been well cloathed and gratified with a Number of Ornaments for their Bodies and otherwise, and also taught the Use of Guns Powder and Ball and been plentifully supplied with them, which has enabled them to kill greater Quantities of Deer, and to go to War with more Success and therefore the white People's coming to this Countrey has always been considered by the Red People as a fortunate Event — That it is very true that when they became a little acquainted together they agreed to live as Brothers upon one Land and to sit at one Fire, and Treaties were accordingly made between them and the Land on the Sea Coast for a certain Distance back was given by the Indians to the white People to live and plant upon. — That the Road between the white People and the red was opened and agreed upon by them for the mutual Advantage and Convenience of both in Order to carry on their Trade and friendly Intercourse and that it always has been and still is the Wish and Desire and for the Benefit of both that this Road should continue and be kept perfectly clean white and unstained - And I hope, as you do, that it will always remain so, and that if by Accident any little Matter should happen that may carry an Appearance of obstructing or staining that Road it will prove no more than what the blowing of the Wind will remove — And that all our Treaties as well those made by our forefathers, as ourselves, will be duely regarded and observed on both Sides - It will be Eight Years next Month since I came Governour of this Province during which Time I have constantly and to the utmost of my

Power observed all the Treaties and Agreements that were made before I came, and all Treaties Agreements or Promises that I have at any Time made with any of the red People since I came, and this I am very certain all your People that know me or that are acquainted with our Transactions will say and allow - It is possible that some stragling Vagrants or Vagabonds may have broke through Treaties and Orders, or may hereafter do so, but such Things if done have been, and if hereafter done will be, unknown to me; and it is next to impossible to come at or punish such wandering People who the Moment they commit an Injury or Offence fly away to another Province - But you may be assured that I and the beloved Men now present and all the good People of this Province are Friends to the red People — And I have received orders from the great King to live in Peace and Friendship with you and to treat you as his Children and as such I now look upon you and receive you; and the Length of the Journey you have taken to come and see me is a strong Circumstance and Sign of your friendly Disposition and good Will to the white People and as such we all look upon it, and will endeavour if possible to strengthen the Link, Vine, or Chain, of Friendship that holds us together. - I have heard of the friendly Visit you paid to the Governour of West Florida and of the Cession of Lands you made to the great King in that Part of the Countrey, and which gave me great Satisfaction, as all the white People live where they will, as you justly observe, are one and the same People; they are all the great King's Children, and are in some Measure interested in the Welfare of one another - And I doubt not but the Governour of West Florida will duely observe the Limits and Boundary settled and agreed upon with You. - I do not know that I ever have transacted any Matter of real Business with any Indians but such as were fully and properly authorised by the Head Men in general, well knowing that it could answer no good End or Purpose; and that a few People unauthorised could have no Right or Pretence to negotiate or settle any Matters of Consequence between the white and red People, and that consequently instead of proving of any Benefit or Advantage it would be attended with Difficulties and Inconveniencies - With Respect to the Superintendant's Conversation with you relative to your Disputes or War with the Chicasaws and Choctaws, it is a Matter he did not consult me upon but whatever my Friends may look upon as for their Advantage and Happiness will always give me Pleasure. - And with Respect to the Superintendant ordering Cattle to be drove to Pensacola I know nothing of it, nor can I positively say what was his Reason for desiring that no other Cattle might be allowed to be drove through your Countrey to Pensacola till his were first carried thither, unless, as he knew there was a great Scarcity of Cattle there, he thought if private Persons who might drive Cattle there for mere Lucre should get there first, they would impose upon the People, take Advantage of their Necessity, and make them pay an extravagant Price for them - Whereas if his Cattle got there first he and his Friends would be supplied at a moderate Price, and not be obliged to purchase at an extravagant Rate from those who might carry Cattle there in the Way of Trade. - I know nothing of Mr Galphin driving any Cattle through your Countrey to West Florida, but presume the Governour of that Province might be in want of Cattle and purchase them from Mr Galphin in this Province, but to be delivered at Pensacola, or Mr Galphin who is a general Trader might send them there in the Way of Trade, and expecting to get a good Price for them as they have not as yet got many Stocks of Cattle in that Countrey.

I very well remember the Congress at Augusta in November 1763, at which I presided, and had the Pleasure of seeing you; and I cannot forget the several Matters that were settled and agreed upon at that Congress. because the whole was then reduced to Writing, and signed by all the Governours, and the Superintendant, and also by the Head Men of the Indians then present. and which I have now here in Print; and by which it was agreed that to prevent Mistakes Doubts and Disputes for the Future, the Boundary between the English Settlements and the Lands and Hunting Grounds of the Indians should be known and settled by a Line extending up Savannah River to little River, and back to the Fork of little River; and from the Fork of little River to the Ends of the south Branch of Briar Creek; and down that Branch to the lower Creek Path; and along the lower Creek Path to the main Stream of Ogechee River, and down the main Stream of that River just below the Path leading from Mount Pleasant; and from thence in a strait Line cross to Sancta Sevilla on the Alatamaha River: and from thence to the southward as far as Georgia extends or may be extended; to remain to be regulated agreeable to former Treaties: And his Majesty having since settled the Boundary between this Province and East Florida to be the River St Mary, at a Congress held at Picolata, in the Province of East Florida, by Governour Grant and the Superintendant, with a Number of Indians, on the 18th of November 1765, all the Head Men then present impowered Captain Alleck to settle a new lower Line cross from Ogechee to the Alatamaha and from thence to St Mary's: and accordingly Captain Alleck came here and in January 1766 the Line was settled and agreed as follows, vizt, That for the future the Boundary Line between the English Settlements in this Province and the Hunting Grounds of the Creek Indians shall be known and settled

by a Line from that Part of great Ogechee River where the lower Trading Path leading from Mount Pleasant on Savannah River to the lower Creek Nation crosses the said River Ogechee, in a strait Line cross the Countrey to that Part of the River Alatamaha opposite to Phenholloway or Turkey Creek; and that a Line shall be continued from the said Creek cross the Countrey to the River St Mary on a Southwest Course, which it is supposed will extend as far up the said River as the Tide flows or swells. - And I sent up a Copy of this Agreement by Captain Alleck, that he might show it to the Head Men, and that they might see what he had done, and I received an Answer that it was Right. -And this I look upon and strictly observe and regard as the Boundary Line between Us - And I want no more Land of the Indians, but am very well satisfied with what we have; and I don't believe there is a single Settlement or Hut above this Line — It has frequently been reported by Indians that the white People had settled over the Line, but on my sending to examine I was always informed by the People I sent that it was not true — However in Order to prevent Mistakes, and that every Body both white and red might know where the Line is, where there is no River or natural Land Mark, I sent a Talk about a Year and half ago desiring that the red People would send down such Persons as they thought proper to see the Trees marked; and accordingly the Beginning of June last, the Coweta Lieutenant, Selechee, the Blue Salt, and some others were sent down to see it done. — And Mr Galphin Mr Barnard with a Surveyer and some other white People went up little River, and, as I have been informed both by them and the above Indians who came down to me, they did mark the Line cross from Little River to great Ogechee to the satisfaction of both the white People and the Indians that were present; and it has also been marked from the lower

trading Path aforesaid at Ogechee cross to Coonochee River, where some Mistake happening they stopt and proceeded no further, but went home: Upon which I sent up a Talk and have received an Answer that they will send down some of their principal Head Men the latter End of this Month to see it finished; and have since proposed to them by another Talk that it should be intirely finished cross from Coonochee to the River St Mary, which is the Boundary between this Province and East Florida; and have sent them a Sketch of the Line as I understand it is to be marked, that they may see it and know every Thing clearly before they come down: and there being two very large Goose Ponds just above the Place where by the Treaty the Line should run, and as those Ponds on Account of the Grass and Water will be very useful to the white People for their Cattle, therefore I have proposed and submitted it to the (slo) whether on Account of the Cattle always getting Water in the Goose Ponds they will agree to vary the Line a little, as marked upon the Paper sent them, and now shewn to you, so as just to take in those Ponds: and the Trifle of Land that will be taken in by the proposed Alteration is not fit to plant or wor (sic) one Shilling but on Account of the Grass and Water as I have mentioned, it being all low good for nothing Pine barren. -And in Respect of your Apprehension of some Error in the upper Line cross from little River to Ogechee, as you cannot find any Body who can give you a tolerable Account of it and therefore supposed they had lost themselves in the Woods or else they would have run a strait Course, and not have traversed as you suppose they did; I will give you the fullest Satisfaction and Explanation about it that is in my Power to do; and shall acquaint you with the whole Matter as far as I know. On my being informed that the Indians would be down by the Beginning of June to see the Line marked I wrote to 37 c r-v 1 10

Mr Galphin who I knew the Indians were well acquainted with, and who was their Friend; and also to Mr Barnard of Augusta, who many of you likewise know; and desired them when the Indians should come, to meet them and see that they were well taken Care of, and then to join them, and Mr Mackintosh the Superintendant's Deputy, and to proceed to the Fork of little River and mark the Line cross from thence to Ogechee River agreeable to the Treaty of Augusta; and gave them particular Instructions to be careful not to have any Difference or Dispute with the Indians, and that if the Line could not be run exactly agreeable to the Words of the Treaty then to get it done as nearly to it as they could. - And those Gentlemen after the Business was over and finished wrote me that the Indians had entertained a different Notion or Idea of the Fork of little River from what we did; for they supposed the Fork to be at a Place called Upton's Creek, but on the Matter being talked over amongst them and explained they were satisfied of the Mistake and that Upton's Creek was not the Fork, and therefore proceeded further up the River but at length stopped at a Creek called Williams's Creek about six Miles below the real Fork and insisted on the Line beginning there and being marked cross from that Place to Ogechee River: Which to avoid Disputes they agreed to according to my Directions. That they proceeded up that Creek, as the Line, for about six or seven Miles 'till they came to an old hunting Path, and then at the Request of the Indians they marked the Line along that Hunting Path 'till they came to the main Branch of Upton's Creek: and then followed Upton's Creek as the Line 'till they came near to the End of the south Branch of Briar Creek, and then turned down that Branch of Bryar Creek 'till they came to the lower Creek Path, and then followed that Path to the main Stream of Ogechee exactly agreeable to the Treaty of Augusta. - So

that the whole appears to me to be agreeable to that Treaty except our beginning to mark the Line from little River about six or seven Miles below or short of the real Fork of little River, which is rather against Us than in Favour of Us, as I shall shew you by the Surveyer's Draught of the Lines: and we do not know of any Indian or Indians that have taken upon them to give up any Lands to the white People other than agreeable to the Treaty, nor would I accept of any but from the Nation; and this you may clearly see by my applying to the Nation to consent to take in that trifling Piece of good for nothing Pine barren the Goose Ponds. - And you must now see that agreeable to the Treaty it was impossible to run a strait Line from the Fork of little River to Ogechee, for by the express words of that Treaty it appears that there was to be several Bends and Turnings in it as thereby described, and you now see by the Plot; and as the Line is now marked, there are natural Land Marks of Creeks and Paths the whole Way; and all of it from Upton's Creek to great Ogethee River is expressly agreeable to the Treaty. — but that Part of the Land from little River to Upton's Creek could not be exactly agreeable to the Treaty because the Indians insisted on beginning six or seven Miles below, and before they came to the real Fork; and which is a Circumstance rather in favour of the Indians than the white People as you see by the Plot: but however I am perfectly satisfied with the Land as it is marked, I want no more, and shall do every thing in my Power that it may be observed, agreeable to your own Expression, as a great Stone Wall; and that not a Tree shall be cut down above or beyond it. - And with Respect to what you mention about St Iago's Settlement, you are greatly mistaken in your Idea of the Geography of that Part of this Province, for his Settlement is almost in the middle of our Settlements, and a great many Miles within or below the Line from Ogechee as settled and agreed by the Treaty of Augusta: And S^t Iago knows very well that about two Months ago on his telling me that some body claimed the Land he is settled upon, I gave him a Paper signifying that he had my Leave to live there, and was to remain there undisturbed: However I shall inquire whether that Land is within any of the white People's Grants, and if I find it to be so, I will take Care that it shall be secure to S^t Iago.

Indian's second Talk.

His Excellency having finished his Talk acquainted Emisteseegoe, by Mr McGillivray, that he believed he had answered every thing that had been mentioned; And that his Excellency was ready to hear any Thing further that he had to say. - Emisteseegoe, having expressed his Disappointment in not seeing Mr Stewart and Mr Mackintosh here as he expected, said that he had had several Talks with the Superintendant and his Deputy, and that the Nation paid great Regard to whatever Talks his Excellency sent up, but thought there was not that Regard paid to the Indians, but that something seemed wanting on the Part of the white People. — That this was the great Town of the Province, and he was come hither to be resolved of several Things they were in Doubt of - That notwithstanding the Regard the Indians pay to the Governour's and Superintendant's Talks and Letters, the white Men who trade amongst them are those who first ridicule and throw aside all Orders and Regulations that are attempted to be established among them - That altho' it is ordered and settled amongst them, and the Traders are instructed, that they shall not take any Raw Skins, yet those Orders are broke through every Day, notwithstanding a Remonstrance was made to the Deputy Superintendant — Also in Respect of spirituous Liquors being carried into their Nation, although limited to a particular Number of

Cags, yet that Number is not regarded but constantly increased by every indirect Means - And that there is too many Traders, and too great a Quantity of Goods in their Nation, more than they can possibly purchase or pay for. - That this (sic) a great Mischief, for the Indians are often induced to part with their Skins for Rum, which should be laid out in Cloathing and Necessaries for their Families; and they also part with and sell their Horses for Rum. — That Indians were often employed as Factors for the Traders, which he thought a very hurtful and improper Measure, as they are not acquainted with the English Laws nor any ways liable to its Penalties; and which they had complained of to the Superintendant, who promised them Redress: but instead of these Mischiefs Abuses and Inconveniencies being prevented, on his Return Home he found the Evil as bad as ever. - And that in Order no Discovery might be made of the Trader who employs an Indian as Factor, he is taught by such Trader, if questioned about it by Indians or others, to say that the Goods are his own, and that he bought them himself. - That at the Congress Sempiaffe complained of Traders going about in the Woods and clandestinely trading with the Indians, and trafficing for Raw Skins to the Injury of the fair Trader; and desired that the Grievance might be remedied: And Sempiaffè further said that for his Part if he met with any of them in future he should look upon them as French or Spaniards, and not white Men, and treat them accordingly. - It was also mentioned at the Congress that the Path from the Nation to the white Towns should be, as it had always been, kept strait and open; to which End their Forefathers used to travel from thence to Charles Town, although they sometimes left their Bodies on the Path.— That there never was so much Ill will between them and the white People as since the Virginians came into the Province, who are

continually robbing them of their Horses and doing them Injury. — He then asked whether any Talk from the Nation, touching the Virginians, ever came to his Excellency's Hands? and was answered No.

These were all answered verbally.

Emisteseegoe expressed his Desire to be accepted by his Excellency as a Friend coming a great Distance to shake Hands with him. — That in Regard to Indians they are not known by their Dress a King being scarce to be distinguished from a common Man; but notwithstanding he assured his Excellency that all of the Tyger Family are of royal Descent: of which Family he is.

Emisteseegoe the Indian Chief attending his Excellency answered his Talk of Yesterday, as follows,

Governour's Answer to Indian's second Talk,

I am sorry M^r Stuart and M^r Mackintosh could not be here according to your desire; but not receiving your Message 'till Yesterday was Seven night, and then from the Time you mentioned you should be here, I expected you every Day, it was impossible to have M^r Stuart here in Time, especially as he is very infirm and lame with the Gout and cannot travel with Expedition, so that it would probably have been three Weeks before he would have received my Message and have come here; even if he had been able or could have come at all which was very doubtful. — And as to M^r Mackintosh he also lives at a considerable Distance, and it is a very difficult and bad Way to his Plantation no Roads are yet made in that Part of the Countrey and the Swamps are now full of Water and almost impassable: and I thought there was the less Occasion for his being present as he is not going any more into your Countrey as M^r Stuart's Deputy.

I very well know that you have paid due Regard to several Talks that I have sent up to you, and doubt not but you will still continue to do so, as I shall always regard yours; and am very sorry you should find any Thing is wanting on the Part of the white People that go into your Countrey to trade with you, and that these People should be the first who despise and disobev the necessary Orders and general Regulations that are attempted to be established amongst and between them and the Indians. — but we have bad People and mad People amongst Us as well as you have—I know very well that it is a Part of my Orders and Instructions to the Indian Traders, as well as the Superintendant's, that they shall not take any Raw Skins, and that they shall not bring any Rum into the Nation, except about fifteen Gallons once in three Months for building Houses and other necessary Purposes; also that no Indians or half Breeds should be employed as Factors, or to trade for any of the Traders: and I am perfectly well satisfied of the Truth of all the Grievances and Inconveniencies you mention and complain of. - And you may be assured that I will to the utmost of my Power prevent these Abuses for

the future, and punish those that are guilty of them. -But although we have many Laws and all the white People are subject and liable to be punished by them; yet I must explain to you the Difficulty I shall be under in so doing, for it is one Part of our Law that no Man can be punished until he is found guilty of the Crime or Offence that he is accused of by a Jury of twelve Men: and that Jury must have Proof that the Man is guilty before they can find him so. And this makes it very difficult for us to punish Offenders who live at so great a Distance as your Towns are from this for want of Proof: and many who could give Evidence against others will not do it, because they are guilty of the same Crimes themselves, and are afraid that those Persons may inform against them. - And another Difficulty is that I cannot punish Men who have not their Licences from me, but from the Governour of Carolina or either of the Florida's. - And therefore I should be glad to have the Names of the Men who have misbehaved in the Manner you mention, that I may know whether they belong to this Province, or are licenced by me or not; and also to be informed of the Names of any of the Traders who know or can prove these Matters against any others. — And you may depend upon it I will do every Thing in my Power to punish them, and prevent those Abuses for the Future; for I am as much against them as you can possibly be, but you see it's difficult for me to do that which I should be very glad to do.

I well remember what Sempiaffè said at the Congress, which was much as you mentioned; and he also said he would take away their Goods from them: but he was told he must not take away the Goods or Horses of any that he found trading in the Woods, but must complain against them to the Governour—and so I say now—and if I can get Proof against any I will certainly punish

them and take away their Licences if granted by meand therefore again desire to know if you can tell me the Names of any that have so traded — It was also mentioned at the Congress that the Path should continue to be kept open strait and white from the Indian Towns to the white People's; and I hope they will always remain so: -that our Friends the Indians may have no Difficulty in coming to see Us: — I know perfectly well that the vagrant Virginians are a Set of very bad People, and that they not only steal the Indians Horses but the white People's, and do many other Injuries to both: and as often as we can catch any of them and get Proof against them for stealing Horses or Cattle, we hang them; and two of them were hanged here last Summer. — The great King's Subjects are all at full Liberty to go where they please and cannot be confined to any particular Countrey; therefore we cannot prevent the Virginians from coming into this Province: that is not in my Power to do, but you may depend upon it I will punish and hang them whenever I can get sufficient Proof against them according to our Law. - And notwithstanding the Difficulties I have mentioned yet you may depend upon it I shall be very diligent and active in trying to redress the Grievances complained of; and that I hope I shall be able to do it-but a Thing of that Kind cannot be done all at once and will take some Time; so that you must have a little Patience - That as these Things have been more particularly and immediately under the Direction and Charge of the Superintendant for some Time past, I have not interfered in them; but now the Superintendant has done with Matters of Trade and they are left to the Governours, I will do every Thing that I possibly can to rectify the Abuses &c complained of. - And now having answered all your Talk, I must thank you for your Readiness in delivering up the fugitive Negroes that were in your Towns agreeable to my Talk; and I must again request that whenever any more are discovered to be amongst you, whether they have run away or have been carried up by any of your People, that they may be immediately sent back; and I shall be answerable for the Reward agreed to be given in such Cases.

The Talk being finished, his Excellency presented Emisteseegoe with a Commission, under the Provincial Seal, in Token of Friendship, and the Confidence his Excellency had of his Loyalty, Courage &c^a

His Excellency James Wright Esq^r James Habersham The Honble | Noble Jones | Grey Elliott | John Graham

tle here.

His Excellency acquainted the Board that a Number of the Governour Protestant Families from Ireland were come in to settle advises with the Board in this Province, and it appeared, by an Application made the Board to this Flovince, and it appeared, by an Application indeed touching sundry protestant to him by John Rae Esq^r that those people to the Number Families lately arrived from of One Hundred and seven came upon the Encourage-Ireland to setment proposed to be given to such Settlers by the late Assembly in in (sic) March last: and at the same time observed that as the Report made upon the Bill (disallowed by his Majesty) intituled "An Act for encouraging settlers "to come into the Province, and for granting to his Maj-"esty the sum of One Thousand Eight hundred and fifteen "Pounds Sterling to be issued in Certificates by the Com-"missioners named for that purpose," and the instructions received from his Majesty with respect to Settlers coming from Great Britain and Ireland, were impediments to his countenancing any such Encouragement; His Excellency

therefore desired the Opinion and Advice of the Board

The Opinion and Advice of the Board thereon.

in the Present Case— The Board on Consideration of the matter, and recurring to the Minute of Council of the 17th of February last, whereby it appeared that the Memorial of Messrs Rae and Galphin therein mentioned, was ordered to be laid before the Commons House of Assembly, do find that the said House, in consequence of that Application, did prepare and bring in a Bill for the Encouragement of such Settlers; that after the said Bill was committed, (but before the third Reading) the Repeal or Royal Disallowance of the former Act arrived; but the Report made therein not being then transmitted, the reasons on which the Repeal was grounded were unknown, and the Bill depending before the House thereupon dropt; That Mess^{rs} Rae and Galphin, nevertheless, upon the Public faith, and in confidence of the Intentions of the Legislature, while the said Bill was in Agitation did promote the coming of the persons now arrived; And therefore the Board were clearly of Opinion that in case the House of Assembly in order to Comply with the former Intentions of the Legislature, and the Expectations and reliance of those persons founded thereon should provide a Sum in the next Tax Bill, for Public Services, to be applied to the use and encouragement of the persons now come in, his Excellency, considering the real State of the Case might give his Assent thereto, and Unanimously advised his Excellency so to do.

GEORGIA At a Council held at his Excellency the Governour's House in Savannah on Friday the 14th April 1769—

His Excellency laid before the Board a Letter this Day received from Edward Barnard Esq^r acquainting his Ex-

cellency that a Party of Creek Indians had taken a number of Horses from the Ouaker Settlement- That they had been pursued and come up with, but instead of the People getting their Horses again the Indians had treated them very ill— And expressing his fear that nothing less than some severe Treatment would be sufficient to Curb the Insolence of such renegade Villians and unless their Insolence was soon curbed, that promising Settlement would be inevitably destroyed—And further setting forth the present disagreeable Situation of the People as by the loss of their Horses they were deprived of raising Provisions this Season— Also a Letter to his Excellency from Joseph Maddocks the Principal Man among those People wherein he says That he believes the Mischief done them was by some ranging outlying Rogues harbouring sometimes at the Oconees, othertimes at the Cherokee Towns, and often in the Woods at the back of their Settlement— That they were of several Nations, Creeks, Cherokees, and Chicasaws, and submitting it to his Excellency's Judgment whether it might not be proper to acquaint the Superintendant therewith that he might send necessary Messages to each Nation whereby they might perhaps get their Horses returned to them, and a stop might be put to the Indians doing further Mischief unless they were protected by their Several Nations which he did not in the least suspect, but rather believed them to be set on by some evil Minded white Men for selfish ends— Which Practises in both he could wish might be very soon ended least their Settlement (till of late so promising) should become a fruitless Blossom- That he was sorry to see the people so affected with the fear of further danger from the late Mischief done them, as he was himself intirely free from any such Apprehensions—And also a Petition of the Inhabitants of Wrightsborough on little River setting forth that the Indians were grown so very troublesome that they were likely to ruin the Inhabitants by Stealing their Horses in great Numbers to the amount of forty seven

of the finest in the Settlement Fourteen of which number being lately stolen some People were lately appointed to follow them Indians and came to their Camp and demanded the Horses but instead of receiving any answer Limpikey (a noted Creek Indian) ordered the Indians to their Guns Tomahawks and Knives- who behaved in a most provoking Manner holding a Tomahawk edgeways to a white Man's face, and threw out many threatnings which the white People forbore to resent notwithstanding they were double the Indian's number— That some of the Indians were known to be Augusta Indians and the others believed to be Creeks and Cherokees- The People returning home the Petitioners thought proper to lay their grieveance before his Excellency acquainting him that the Inhabitants appeared much dispirited, some by reason of the Loss of their Horses being deprived of raising Bread for their Families in their accustomed way, others conceiving that their is great danger of their Lives, and all concluding that unless some speedy way be found for redress and preventing such Grievances they should be under the disagreeable necessity of leaving the Place And resting it on his Excellency's Superior Judgment, and with Impatience waiting his Excellency's Answer—

Which said Letters and Petition being read his Excellency advised with the Board whether in this Arduous affair it was not necessary immediately to send up a strong Talk to the Creek Nations complaining of the Injuries done in our Settlements by the Indians notwithstanding the Line between us and them had been so lately marked and Solemnly ratified— Respecting the dangerous Consequences of the Robberies now committed by their People in the new Settlement— Demanding a Retaliation of the Horses stolen and the Punishment of the Transgressors— Urging the necessity they are under to restrain their People from such outrages— otherwise they must not be surprized if the People, so repeatedly Injured and insulted

should no longer bear such usage but think themselves Justified in defending their properties by every means in their Power— And the Consequences that may result therefrom the Indians must place to their own Account—

And Also that some orders in the Present Case be given to the Colonel of Militia in that District & ...

Which Matter being duly weighed and considered The Board intirely approved of what his Excellency offered and thought it the only Expedient that could be at present fallen upon for the Relief of these People—

His Excellency the Governour Signed the following Grants Viz.—
